BRADY'S DAGUERREOTYPES:

The first Gold Medal awarded for Daguerreotypes, was received by BRADY. The new and magnificent Daguerrean Gallery, No. 359 Broadway, is now completed and open for visitors. The proprietor has no hesitation in claiming for his establishment advantages possessed by no other, either in this country or in Europe. The facilities for the production of first-class pictures are unrivalled. An additional building has been erected, by which the Reception Room, Dressing Room, and Operating Room, are on the same floor, thus forming a new and desirable arrangement. This Gallery, in connection with the old establishment, No. 205 Broadway, contains a collection of European and American celebrities unrivalled on this continent.

\$1.50 TO \$6.00 PER STEP.

ALSO,

Miller's Patent Iron Railing,

Which possesses an entirely new feature in fencing, viz., that of conforming to any grade of ground ; making it the best railing ever constructed for

CEMETERIES,

and all other places where the ground is inclining ; it is equally good for level fencing, such as is required for Dwellings, Balconies, Parks, &c. Price per lineal foot, \$1.00 and upwards. Also,

Miller's Iron Picket Fence,

The Cheapest and best Wrought Iron fence ever made ; combining cheapness and strength, and must eventually supersede wooden picket fence, and iron work of every description.

Price per lineal foot, 75 cents, and upwards.

Life Insurance Company.

BOSTON, MASSACHUSETTS.

CHARTERED, APRIL 1835.

Branch Offices, in Metropolitan and Ocean Bank Buildings, 110 Broadway and 218 Fulton street,

NEW YORK CITY.

Capital and accumulation of premiums to meet losses.

\$580,000.

After just making and paying a dividend for the last five years, (in cash, not in scrip) of 30 per cent., amounting to

\$141,000.

The entire surplus profits is divided among all the members every five years, thus avoiding the unnecessary, dangerous and corrupting tendency of large accumulations of unpaid dividends, mistakenly called capital, and also affording a certain and good rate of interest upon the outlay of premiums.

This is the oldest American Mutual Life Insurance Company, and one of the most successful.

Insurance may be effected for the benefit of a married woman beyond the reach of her husband's creditors. Creditors may insure the lives of debtors.

A blank form for application for insurance, or a copy of the Company's pamphlet, containing the charter, rules and regulations, also the annual reports showing the condition of the Company, will be furnished gratis.

CONTAINING VARIOUS STATISTICAL AND HISTORICAL INFORMATION, AND

A MAP,

PREPARED EXPRESSLY FOR THIS WORK.

BY DANIEL E. GAVIT.

JERSEY CITY:

PUBLISHED AT THE OFFICE OF THE "WEEKLY NEWS," 44 MONTGOMERY STREET

1854.

Entered according to Act of Congress, in the year 1854, by
DANIEL E. GAVIT,
In the Clerk's office of the District of New Jersey.

P R E F A C E .

PREVIOUS efforts in Directory making, in Jersey City, not having given very general satisfaction, at the suggestion of various citizens, the Proprietor determined in April last, to commence the compiling and publication of one, not supposing for a moment, but that the parties who had heretofore been engaged in the same enterprise, would continue, and thus fairly contest the field by actual merit. As the case has been otherwise, we regret exceedingly the inconvenience that has been caused our citizens generally by the delay in producing this work. Various influences have combined to produce this result, and finally, when our matter was all prepared, we were so much behind the time contracted for, that our printers were forced to complete other work that had taken the place of ours, and thus the loss of nearly another month.

At the present time, it is utterly impossible to prepare a satisfactory work of this kind in Jersey City; the great want of municipal regulations, in regard to naming the streets, and properly numbering the lots, altogether prevents a proper compilation of the work. However, the compiler believes that the present volume will be found to contain much valuable information, and he trusts that this, his first effort in the line, will meet the approbation of his fellow-citizens.

The difficulties experienced have been of much value, which fact, will no doubt be fully demonstrated in the next issue of the work. It being our intention to continue the publication, regardless of the success of the present volume—one feature we are confident of, and that is, that the whole work can be finished and distributed by the first day of June, by which time we hope to offer the *combined Directories* for 1855-6, containing a complete canvass of the whole of the territory depicted on the map that accompanies this volume.

It was our intention to furnish the statistical matter of the various religious and other societies in our present volume, but our call for information not being promptly responded to, and as our appendix was lengthy and expensive, we concluded to defer the most of them, hoping by such a course that we would be benefited when calling for similar information hereafter.

In conclusion, we will state the fact, that as far as Jersey City is concerned, the editor is confident that every house has been visited, and that all the names, occupations, etc., are printed precisely as they were furnished from the parties themselves, or their agents, and he will close these brief remarks, by expressing the hope, that our citizens generally will hereafter take more pains in furnishing their statistics for similar publications.

Jersey City, July 20th, 1854.

J. H. BROAS,

DEALER IN

FOREIGN AND DOMESTIC
FRUITS AND VEGETABLE

The first of the season of all kinds of Fruits, Vegetables, &c., can be furnished at this Market. Also,

BEEF, PORK, FISH, OYSTERS, CLAMS, ET

LAST, BUT NOT LEAST, A BEVERAGE FOR THE BLOOD,

MAPLE CREAM, OR, ROOT BEER

MAPLE CREAM,

A Beverage and Purifier of the Blood; it imparts a gentle and agreeable stimulant throughout the system. As a substitute for Spirituous or Malt Liquors, or even Tea or Coffee, its superiority is self-evident—its virtues being truly astonishing! In scorbutic affections, diseases of the skin, etc., this Beer is particularly useful, and is highly recommended by all who have used it. As an ordinary table-drink it stands pre-eminent, having been used as such by many of our most respectable families, here and elsewhere, to their satisfaction.

PATENT, REACTION, CENTRIFUGAL,

PUMP AND FIRE ENGINE, ADAPTED TO ANY SITUATION,

Unlimited in power ; certain in action ; permanent in use ; and, withal, so low in cost, that they are rapidly superseding all others for STEAMERS, VESSELS, MANUFACTORIES, PAPER-MILLS, TANNERIES, DISTILLERIES and RAILROAD STATIONS, DRAINAGE and IRRIGATION, COFFER DAMS, MINES, QUARRIES, DRY-DOCKS and FIRE-ENGINES ; they are UNRIVALED in the World for ECONOMY, DURABILITY, SIMPLICITY, freedom from liability to get out of order, and large results from the power applied.

SIZES, FROM 25 to 100,000 GALLONS PER MINUTE CAPACITY.

MANUFACTURED BY

Union Power Company of U. S.,

Office & Warehouse, 33 Broadway, New York.

PHRENOLOGY

BY J. C. MCLELLAN

PHRENOLOGY, OR THE SCIENCE OF THE MIND, AS DEVELOPED BY THE STUDY OF THE BONES OF THE HEAD. BY J. C. MCLELLAN, M.D., F.R.C.S., &c. &c. LONDON: PUBLISHED BY J. B. LEECH, 15, N. B. STREET, IN THE STRAND. 1842.

THE PRINCIPLES OF PHRENOLOGY

PHRENOLOGY is a science which has of late years attracted much of the public attention. It is a science which has been the subject of much controversy, and which has been the basis of many of the most important theories of the mind. It is a science which has been the subject of much controversy, and which has been the basis of many of the most important theories of the mind. THE UTILITY OF PHRENOLOGY.

PHRENOLOGY teaches us our natural capacities, our right and wrong tendencies, the most appropriate avocations, and directs us how to attain self-improvement, happiness, and success in life.

By teaching parents, *specifically*, the dispositions and characteristics of their children. PHRENOLOGY shows how to instruct, develop, and govern them, and for what profession, business, or pursuit in life to prepare them.

PHRENOLOGY enables us to read the characters and motives of our "fellow men" at a glance, to judge reliably whom to trust, and with whom to form intimate business or social relations, and becomes at once the most delightful, useful, and interesting study which can possibly engage our attention.

A correct analysis of the PHRENOLOGICAL ORGANS shows each individual wherein he is deficient, and wherein excessively developed, and *how* to cultivate or restrain those faculties necessary, to obtain a harmonious, uniform, and consistent Intellectual, Moral, and Social Disposition.

WRITTEN DESCRIPTIONS of character are becoming every day more and more in demand, to such an extent, indeed, that we are obliged to employ Phonographic Reporters for this purpose. This method enables us to impart, in a permanent form, to each person, advice relative to health, habits, balance of Temperament, the culture of weak faculties, and the training of strong ones, etc., much better than can be done in any other way. These MENTAL portraits, as guides to self-culture, are invaluable.

THE PHRENOLOGICAL CABINET contains Busts, and Casts from the heads of the most distinguished men that ever lived; also Skulls, human and animal, from all quarters of the globe—including Egyptian Mummies, Pirates, Robbers, Murderers and Thieves; also numerous Paintings and drawings of celebrated Individuals, living and dead. Strangers and citizens will find this Cabinet or Museum, 308 Broadway, N. Y., an agreeable place to visit.

PHRENOLOGICAL EXAMINATIONS AND ADVICE, with Charts and full Written Descriptions of Character, given, when desired, at our rooms, No. 308 Broadway, New York.

FOWLERS AND WELLS have all works on Phrenology, Physiology, Phonography, Hydropathy, and the Natural Sciences generally.

HOUSES AND LOTS

For Sale on favorable terms. Houses to Let at all times, at moderate rents.

MR. GILBERT is the proprietor of a large number of Lots in the Fourth Ward, many of which surround the block which was conjectured as being the most desirable site for the City Hall, which block was afterward sold at auction and brought fair prices, many of our first citizens being the purchasers. He has also a large number of very desirable and valuable lots on Bergen Heights, which, for the view presented, cannot be surpassed. He is also one of the largest land-owners in the thriving village of East Newark, (lying directly opposite to the city of Newark) and is the owner of the entire East Newark estate, where lots for the erection of buildings can be procured at the most favorable prices and terms.—[ED. HOWARD

Life Insurance Company,

No. 237 Broadway, cor. Park Place, N. Y.

The Howard Life Insurance Company, possessing an ample capital, and every facility for continuing and extending their operations upon the most approved and equitable basis, would confidently submit to the public their rates and conditions for policies of assurance.

Policies are granted upon both the mutual and joint-stock principle, and premiums may be paid either annually, semi-annually, or quarterly, to suit convenience of applicants.

Persons insured in this Company have the privilege of crossing the Atlantic to ports in Europe, in first-class vessels, at all seasons of the year, WITHOUT EXTRA CHARGE.

A small extra premium will be charged for permits to California, Australia, and foreign countries. Pamphlets and full information may be obtained on application at the office of the Company, or of T. Robinson Rogers, Agent, No. 44 Montgomery street, or Dr. T. R. Varick, Medical Counsellor, Jersey City.

WM. V. PORTER, SECRETARY.

A BRIEF HISTORY,

Containing Historical and Statistical Facts of Jersey City, hastily compiled from authentic sources, for the "City Directory," June, 1854.

At the present day, Jersey City contains 21,000 inhabitants. It is situated directly opposite and within three minutes' sail of the most densely populated portion of New York city, and within fifteen minutes' walk and sail from Wall street, the great financial and commercial centre of the New World.

The present boundary encloses a surface of nearly 1,000 acres, to which may be added a water front extending along the Hudson river, and parallel with New York city, a distance of 8,000 feet, and westerly along the bay of New York, 5,000 feet; which latter, when reclaimed and filled in, as represented in the map which accompanies this work (operations for docking and filling up have been already commenced), will add 250 acres to the taxable area. At no distant day, its boundaries will no doubt extend to Hoboken, Hudson, Bergen, and other suburbs; and it is not too much to estimate that in a few years, nearly the whole territory represented on our map will be consolidated into one city, which will contain at least 200,000 inhabitants. From actual data, now in our possession, we are confident in stating that the population within the bounds of the space illustrated by our map has more than doubled since 1850, and that we have nearly the first 50,000 inhabitants at the present moment.

As will be seen, the whole extent of the corporate limits is in blocks, which are generally of the dimensions of 200 by 400 feet, are divided into lots of 25 by 100 feet, with streets 60, 70, 80 and 100 feet wide; and there are some 20 acres reserved for public grounds. Among the population are represented some of the largest commercial, manufacturing, and financial interests of the great city opposite; and for social harmony, good government, and general deportment, the whole will compare most favorably with any other city in the Union.

Simultaneously with the issue of this volume, one of the grand features for the unprecedented increase of our population will occur. We allude to the introduction of the water of the Passaic, which is pumped from that river at Belleville, four miles above Newark. After the completion of the Croton Aqueduct in New York, and owing to the great difficulty experienced in procuring pure and wholesome water in this city, considerable agitation occurred among the prominent citizens in regard to that subject.

After various primary movements, the matter having been previously brought before the State Legislature, at Trenton, an act was passed by them in March, 1851, "*For the appointment of Commissioners in relation to supplying Hoboken, Van Vorst, and the city of Jersey, with pure and wholesome water.*" The first water commissioners, under this act, were Edwin A. Stephens, Edward Coles, Dudley S. Gregory, Abraham Van Bos-

kerk, and John D. Ward. The Commissioners were empowered to appoint engineers, cause surveys to be made, &c. On the 22d of July of that year, the Commissioners secured the services of Wm. S. Whitwell, who had formerly been Chief Engineer of one of the divisions of the Boston Water Works, and who immediately proceeded with the examination, drawing plans, and making estimates, &c., of the various sources that had been spoken of. A map was also prepared by Messrs. Clerk and Bacot of all the territory that was expected to be supplied by the proposed reservoir, to be located on Bergen Heights. After fairly investigating all the proposed plans, it was finally determined to bring the water from the Passaic River at Belleville, a distance of *about eight miles*, which work has been constructed in the most thorough and substantial manner, it being at present capable of supplying *two millions of gallons in twenty-four hours*, and even should our number of inhabitants increase to two hundred thousand, we shall have more water for each individual than any other city in the Union. The water which is now introduced into the stores, manufactories, dwellings, &c., with a superior system of sewerage, which is about being consummated, and the facilities of gas, and many other valuable features of domestic economy, render Jersey City a most desirable place of residence.

In the amended charter of Jersey City, passed March 20th, 1852, we find the following boundaries of the corporation, which can at once be fully comprehended by reference to the map :

"Commencing at the south-west corner of block number seventy-six, as shown on the map of property of Cornelius Van Vorst, being the intersection of South and Dutch streets; and from thence south, sixty degrees east, to the middle of the Hudson river; thence up the middle of said river, and parallel with Hudson street, to a point in said river bearing south, sixty degrees east, from the mouth of Harsimus, or Mill creek; thence north, sixty degrees west, to the mouth of said Mill creek; thence up the middle of said creek to the first branch or sprout thereof; thence in a north-westerly direction, till it meets the Hoboken embankment; thence along the southerly side of said embankment, south-westerly, to the bridge on the Hoboken turnpike road, near the foot of the hill; thence along the easterly line of said Hoboken turnpike, to a point on the same, near the first bend or curve of the road, and from which point the spire of Trinity church, New York, bears south forty-three degrees forty-five minutes east, and the spire of the Presbyterian church, Jersey City, bears south, twenty-three degrees east; thence south, thirty-three degrees west, to the centre of the bridge on the turnpike leading from Jersey City to North Bergen; thence south, thirty-one degrees west, to the Mill creek, or creek of the woods, on the south side of the New Jersey railroad; thence down the middle of said creek to the mouth thereof, where the same empties into Communipaw cove or bay; thence to the corner of said block number seventy-six, the place of beginning."

By the same instrument, the city is divided into FOUR WARDS, to wit:

All that part of the said city lying south of a line beginning in the middle of the Hudson river, at a point opposite the middle of the street now called York street, and from said point or place of beginning to run westerly up to and along the middle of said York street to the middle of Henderson street, and east of a line drawn thence southerly along the middle of Henderson street, as far as the same extends, and thence in the direction of said line south to the southerly boundary line of the said Jersey City, shall constitute the FIRST WARD.

And all that part of said city lying north of the aforesaid line, extending from the middle of the Hudson river into and along the middle of York street to the middle of Henderson, and east of a line running from thence northerly along the middle of Henderson street, and across Newark avenue to the middle of Prospect street, thence continuing along the middle of Prospect street, northerly, to the middle of Harsimus street, and south of a line running thence eastwardly along the middle of said Harsimus street, as far as the same runs, and thence in the direction of that line, easterly, to the middle of the Hudson river, shall constitute the SECOND WARD of said city.

And all that part of the said city lying west of the middle of Henderson street aforesaid, and south of the middle of Newark avenue, and south-westerly of the Newark turnpike, or avenue, to the westerly and southerly boundary lines of said city, shall constitute the THIRD WARD of the said city.

And all the residue of the said city shall constitute the FOURTH WARD thereof.

A large portion of the area is made or filled-in land; and we understand it is the general opinion of geologists, that the whole of the surface that now forms Jersey City and Hoboken, with the exception of three small islands, were at an early day a part of the bed of the Hudson, and that the tide ebbed and flowed completely up to the edge of Bergen Hill. The largest of these islands now forms a portion of Hoboken, and the other two are parts of the four wards of Jersey City.

As rather more territory than is taken in by our *map*, and which property at the present time is worth *millions*, was at one time purchased for less than the present price of one of the poorest water-lots, we have appended some documents in regard to it.

Before the consolidation with Van Vorst, Jersey City consisted of a peninsula or neck of land, jutting out into the Hudson, somewhat over a mile from the foot of Bergen Heights.

This neck of land was granted by letters patent from Sir William Kieft, Director-General of the Dutch West India Company, to Abraham Isaacsen Plank, in the year 1638. It was then called, by the Dutch, Paulus Hook, and in the language of the natives (Iroquois), Areseck-houck. On the 12th May, 1668, this grant was confirmed to Abraham Isaacsen Plank, by letters patent from Governor Philip Carteret and his Council of the Province of New Jersey.*

On the 13th September, 1698, Paulus Hook was conveyed by the heirs-at-law of Abraham Isaacsen Plank to Ido Cornelisse Van Vorst. The title to this neck of land remained in him and his descendants until March 26, 1804, when Cornelius Van Vorst, one of his descendants, and the sole owner, conveyed the whole of Paulus Hook to Anthony Dey.

The amount of land sold by Mr. Van Vorst was the whole of the city east of a line drawn from Morgan street, about the centre of the block between Washington and Warren streets, to a point striking the Morris Canal at Van Vorst street. It was first sold by a ditch boundary; but, as this was rather indefinite, and created perplexities on both sides, by mutual agreement a surveyed line was established. The price agreed upon was an annuity of \$6,000, the purchaser having exclusive control of the

land, ferry privileges, etc. A few years after, from various circumstances, the son and legal heir of Mr. Van Vorst sold his whole right and title for \$40,000. His heirs, however, still retain the old homestead and its appurtenances, together with large quantities of real estate that was then situated in Harsimus, but now all incorporated in the city limits. The manor-house, by the way, is one of the oldest buildings in the State, and is on the precise site of the one erected by the first patroon.

On the 18th April, 1804, Anthony Dey conveyed his purchase to Abraham Varick. On the 20th April, 1804, Abraham Varick conveyed the whole of it to Richard Varick, Jacob Radcliff, and Anthony Dey. On the 10th November, 1804, "The Associates of the Jersey Company" were created a body corporate by the Legislature of New Jersey; and by deed bearing date the same day, Richard Varick, Jacob Radcliff, and Anthony Dey conveyed the same to "The Associates of the Jersey Company," who laid out the whole of Paulus Hook into blocks or squares, with intervening streets, and sub-divided the blocks into building lots; besides laying out commodious public grounds; and made and recorded a map or chart thereof. This map was long used as the authority, and on all the old deeds the lines are described by *Mangin's map*.

The law incorporating the "Associates of the Jersey Company" authorized (among other things) the clerk of the county of Bergen to appoint a deputy clerk, to reside on the island of Harsimus, which included Paulus Hook, for the purpose of recording all deeds, mortgages, and papers relating to real estate within said district; which records are now to be found in the office of the clerk of the county of Hudson, in which county Paulus Hook is now included.

In 1820, January 28, an act was passed by the Legislature of New Jersey "to incorporate the city of Jersey in the county of Bergen," and a "Board of Selectmen of Jersey City" authorized under said law "to conduct the affairs thereof."

In 1829, January 23, another act was passed "to incorporate the city of Jersey in the county of Bergen, and to repeal the former act"; and by it the freeholders and inhabitants of all that part of the township of Bergen formerly called Powles' Hook was created a body politic by the name of "The Board of Selectmen and inhabitants of Jersey City."

In 1836, March 8, a supplement to this act was passed, authorizing assessments for the improvements of the city, making the property benefited liable therefor, and authorizing an exchange of part of the public grounds.

In 1838, February 22, an amended charter was passed, entitled "An act to incorporate Jersey City," by which all that part of the township of Bergen formerly called Paulus Hook, and all the inhabitants within the limits aforesaid, were constituted and declared a body corporate, by the name of "The Mayor and Common Council of Jersey City."* This act repealed all the former acts, except the supplement of 1836, which was enacted to be taken and considered as a part of the present charter. By this charter Jersey City was also constituted an independent township. Previous thereto, the electors had to go some distance to vote for township officers and representatives to the Legislature and to Congress.

In 1839, March 8, a supplement was passed to the act incorporating Jersey City, under which the limits of the original city of Jersey were extend-

* The Board of Selectmen, which prepared the bill, were desirous, with many citizens, to have the incorporate name "The City of Jersey," but it was altered as above, by the representative from the then county of Bergen.

ed westwardly to the centre of Grove street, as the same are laid down on the chart of Jersey City and Harsimus.

In 1840, February 22, the county of Hudson was created, in which Jersey City is included. The Courts of the county are now held in the new Court-House on Bergen Hill, in the town of Hudson, where is also situated the county jail, clerk's, surrogate's, and other county offices. During the last year, extensive additions were made to some of the buildings, and they now possess every requisite. By the new charter of Jersey, passed March 18, 1851, and amended March 26th, 1852, Jersey City and Van Vorst were consolidated by annexing the latter to the former corporation, thus making the boundaries we have already given.

Both Jersey City and Van Vorst have wonderfully improved, and rapidly increased in population since 1836. Some of the elegant brown stone fronted stores in Montgomery street would make a prominent feature in Broadway, New York; and there are private residences in Washington, Essex, and other streets, that will compare favorably with those of the Fifth Avenue and vicinity in New York city. The streets are generally laid out at right angles, and well paved, and, in many parts, are shaded with trees. The whole city is well lighted in the evening. Preparations are now being made to substitute atmospheric for spirit gas. The proximity and ease of access of Jersey City to New York render it a desirable place of residence to thousands who do business in the great metropolis; and it will not be an out-of-the-way estimate to state that at least one-third of the population is employed on the other side of the river.

There is a large number of churches, in a fair ratio with the number of the population, nearly every denomination being represented, and some of them by several different societies. There is also a good public school, but this is not enough to meet the wants of the people in this particular at the present time. Preparation is, however, being made, and on the next issue of the City Directory, accounts will no doubt be given of a successful system of public education.

Jersey City is connected with New York by a capital ferry. The first boats that were used for ferry purposes were skiffs, the better class of which were manned by two rowers with a pair of sculls each; when there was an extra load, they were usually assisted by the passengers. The next advance was the employment of perry-augers [a small two-masted fore-and-aft craft, somewhat like the lighter of the present day]. These were followed by double steam ferry-boats, built under the immediate superintendence of the immortal Fulton himself, and called respectively the "York" and the "Jersey." These boats had their day, and were succeeded by the "George Washington" and "Richard Varick." The whole of the above have gone the way of all boats, as well as all flesh, and we now have a superior fleet, consisting of the "D. S. Gregory," [which was built in 1853, in the most elegant and substantial manner; she is 183 feet long, 32 feet beam, 12½ feet hold, 40 inch cylinder, 11 foot stroke; her cabins are upholstered, and altogether, in speed and comfort, she has no superior as a ferry-boat], "Colden," "Hudson," "Philadelphia," "Arresseoh," and "New Jersey;" the most of them being first-class boats of a superior construction and size to any used for like purposes elsewhere. The best often cross in three minutes, and none of them are over five minutes. Trips are at present made every seven and a half minutes during the day, and four times each hour during the night. Extensive additions and improvements are now being made to the Ferry. The slips are being extended beyond the new water front, on the line of Atlantic street; and large and elegant

ferry-houses, docks, slips, etc., will be at once erected to meet the greatly increasing demand. The new ferry-house and slips on the New York side are also to be doubled in capacity; and when the whole is finished, they will, it is supposed, present superior features to any like establishment extant.

By an act of the Legislature, the established fare for foot-passengers is three cents.

Those who choose, have the privilege of commutation, which, we understand, has been embraced by at least 6,000 individuals during the present year, who, by thus paying quarterly, at the rate of \$10 per annum, can cross as often as business or pleasure requires without extra charge. As near as can be ascertained, without a laborious task of figuring, about 7,000,000 foot-passengers crossed the ferry during the year 1853; 1,951,111 of which were railroad passengers.

Jersey City is now one of the most important railroad termini in the Union. First we have the New Jersey Railroad and Transportation Company, over whose route goes not only the greater part of the travel for the seat of the Federal Government, but also that to the whole southern and south-western portion of the Union. Next, our city is the principal terminus of that monster of mammoth enterprises, the New York and Erie Railroad, bringing us in connection with the great West and North-west. It is also the outlet of the Morris, Essex, Paterson and Ramapo, and Somerville roads. There are over forty arrivals of trains, and the same number of departures, during each twenty-four hours.

One of the grand features of Jersey City is its MANUFACTORIES, which send their products to, and celebrate its name in, nearly every portion of the civilized world. The royal mints of England, France, and others, use *crucibles* made in Jersey City.

The flint glass ware produced here has never been excelled. Pottery equal to Staffordshire's best. The iron horse, as perfect as a thing of life, is here manufactured in the highest perfection. Soap and starch were exhibited at the Great Exhibition in London, which received the highest encomiums, although brought in competition with their own like articles, which, it is well known, British nationality was bound to sustain. Cement from the North Point Works has bound together the auriferous quartz of California and Australia. Cars from this city run the six-hour trips across the Isthmus of Panama.

At our machine-shops is manufactured machinery of every kind, not only for this section, but for many far distant lands, where some are used to aid the planter and farmer in gathering, preparing, and manufacturing his crop, while other portions are used to facilitate its transportation to market. Again we turn, and find hundreds of sturdy operatives engaged in hewing great pieces of stone, to still further beautify and adorn our prosperous city. There is hardly a kitchen on the Continent, wherein one of Savery's kettles or pots will not be found. The acknowledged best *cast-steel* ever produced was from the *Adirondac*. Neither are the finer branches of manufacture neglected. Our Jewelry establishments produce large amounts, and in the art of pyrotechnics, the name of Edge will ever be a household word. In short, very few of the citizens themselves know the wonderful amount already bound up in our manufactures. At least *five millions of dollars* are invested in Jersey City, and it is thought that the actual product, per annum, far exceeds that amount.

Among the manufactories must not be forgotten the old WIND-MILL, that was so long a landmark to 'Paulus' Hook. It was built near the pres-

ent corner of Green and Montgomery streets, by the late Isaac Edge, Esq., in 1815. It was demolished in 1839. The oldest manufactory is the Glass-Works, started in 1824, and the Pottery commenced operations in the following year.

We have two flourishing Banks in Jersey City. The HUDSON COUNTY BANK and the MECHANICS' AND TRADERS' BANK, both, and more especially the former and older institution, have done much to elevate the financial reputation of the place. We also have a capitally organized SAVINGS INSTITUTION, that has done much good for the working classes. There are two Insurance Companies, and another being organized. All the above are in a most prosperous condition.

The domestic mercantile pursuits of Jersey City are quite an important feature, and many of the stores and warehouses are of a first-class order. A large number of the parties engaged, are the best kind of active, intelligent, shrewd business men; and we were agreeably surprised to learn, *sub rosa*, that the names of most of the Jersey City merchants are marked A, No. 1, on the books of those officious gents, the *mercantile agents* of New York city.

Of course there are some of the *old foggy*, non-advertising, hand-to-mouth class, but they are gradually being driven to the wall by the *Young America* class of merchants, who use all the latest improved means to promote a healthy and prosperous trade, and by such a course are not only drawing customers from the great city on the other side, but are rapidly securing themselves a competency.

Jersey City is considerable of a coal mart, it being the terminus of the Morris canal, over which some 300,000 tons will no doubt be transported during the present season. But not more than one-third of this amount will arrive at this market, the remainder being used for smelting iron ore on the line of the canal. However, the iron manufactured is brought to this city by the boats of the company. Coal is received in large quantities from other sources, but we were unable to get the gross amount. Among the occupations in the list for the *Directory*, a large number of coal-dealers will be found. The terminus of the Morris canal is in the south part of the city.

The fisheries of Jersey City have been a considerable source of revenue ever since the place was known; large quantities of oysters, shad, &c., are taken every season. Some attempts have also been made in the whale-fishery. There is at the present time a large fleet of sailing craft, mostly schooners, engaged in the Southern trade.

The British and North American mail-steamers have their principal American depot in this city. Their establishment, consisting of buildings for storage, officers' and crews' quarters, offices, piers, docks, and sheds, are quite extensive, and must be of considerable pecuniary value. One of their steamers departs for Liverpool every second Wednesday, steamers of the line leaving from Boston on the alternate Wednesdays. There are also some half dozen small steamers belonging to this line, which make trips to Bermuda, St. Thomas, Halifax, &c. In the annexed papers will be found a short history of the ships, &c., that have composed this line, and for which we are indebted to a gentleman who has been connected with the establishment from the first. The punctual departures of the above steamers amply prove the fact that there is sufficient depth of water on the line of the newly adopted water front for the ready access of vessels of the largest tonnage; another fact has been repeatedly remarked, that when it was necessary to cut vessels out on the New York side, during severe winter weather, they could slip their fastenings and go to sea without difficulty from this side of the river.

Jersey City is a port of entry, annexed to the collection district of New York, together with all that part of the State of New Jersey which lies north and east of Elizabethtown and Staten Island. An assistant collector *should* reside at Jersey City, who could enter and clear vessels at and under the instruction of the collector of New York.

The Board of Pilot Commissioners of New Jersey keep an office and hold its meetings in Jersey City, where the pilots under their commission account monthly. A history of this valuable institution will be found annexed.

The municipal power of Jersey City is vested in a mayor, who is elected annually by the people, and sixteen aldermen (four from each ward), who hold office for two years each, eight of them being elected at every regular charter election, which takes place on the second Tuesday in each year. From the year 1820 to 1838, it was vested in a board of five selectmen, whose officers, chosen by the board, were as follow :

Jersey City is deservedly reputed to be a most healthy situation. The air is pure, salubrious and bracing, and protected from the severity of the northern and western blasts of winter, by a belt of high lands surrounding it on those sides. It commands an unequalled view of the bay and city of New York, with the surrounding shores, and also of the Hudson river north as far as the Palisades, and south to Sandy Hook and the high lands of Nevesink. It is surrounded by a picturesque and interesting country. The charming sail across the river, to enjoy the cooling influences of the sea-breeze in summer, or sitting comfortably in a well-warmed, lighted, and ventilated cabin in winter, present rather a favorable comparison when placed in juxtaposition with the omnibuses and city rail-cars that always have room for one more. The writer of this paper has resided the last *four years* in Jersey, and although his duties have required his crossing at all hours of the night and day (and during that time we have experienced one of the most severe winters of a half century), he never has known an hour's detention in crossing.

None of the surrounding suburbs of the great city have made more rapid strides in the increase of population than Jersey City, since it took its first actual impetus about the year 1837. From an old manuscript we make a few extracts, to give an idea of the appearance of Paulus' Hook at the time of its purchase by Mr. Dey—truly, a wonderful contrast from the present day:

"Paulus' Hook, at the time of its purchase by Mr. Dey, in behalf of himself or others, was one large sand-hill, surrounded on three sides by marsh and the fourth by the river. The only building on the place was a low farm-house, with a piazza in front, probably forty feet in length, and occupied by Col. David Hunt, the lessee of Van Vorst, both of the land and ferry. He also kept the house as a tavern and ferry-house.

"There were several stables, occupied by the proprietors of the stages between New York and Philadelphia, for the convenience of parties arriving in their own conveyance (it will be remembered that, at that early day, people mostly stayed at home, unless the business was of great importance, and then those who could afford it used their own private conveyance when they went abroad). On the premises was a dwelling, occupied by a man named John Murphy, supposed to have been a servant of Major Hunt. There was also a store-house and hay-scales. These scales remained many years in a dilapidated state. They were situated near the line of York street, in the rear of the present Hudson House.

"There seems also to have been a race-course, over which the Dutchmen ran scrub-races. It must have been very limited (in size, we suppose), and was in front of the river, and perhaps may have extended somewhat on the south side, with the hill in the centre, the north side of which was abrupt, and gullied with the rains."

The elegant row of brown fronted dwellings in Sussex street stands on a portion of the hill above referred to. We have a deal of historical information in regard to the fortifications that were here, and other facts we have gleaned from old residents, and documents now in our possession, which will be given in future publications.

POPULATION.

In 1802, Major Hunt and family, John Murphy and wife, and Joseph Bryant, numbering *thirteen persons, all told*, constituted the whole of the inhabitants of Paulus' Hook; they occupying one house and its out-houses.

By the records of the proceedings of the Board of Selectmen in Jersey City, it appears that in 1825, the number of taxable inhabitants in the city was 118, only 36 of whom were freeholders.

In 1829, a census was taken by the Rev. E. D. Barry, then a resident of Jersey City, and the following is a synopsis of his report:

Males, 557; females, 468;—total, 1,025. 649 were adults.

In 1834	Jersey City had	-	-	1,500
In 1837	"	"	and Harsimus,	3,007
In 1840	"	"	"	4,090
In 1843	"	"	"	5,250 estimated.
In 1848	"	"	"	9,500 "

In 1850, by the United States census, we find that in June of that year, we had in Jersey City and Harsimus, males, 5,479; females, 5,994; total, 11,473.

From a carefully compiled census, we find that the population of Jersey City, on the first day of June, 1854, was—

Males,	-	-	-	-	-	10,496
Females,	-	-	-	-	-	10,493
Total,	-	-	-	-	-	20,989

An actual increase of 9,516, or about 80 per cent, in four years. It will be perceived, that we have at present *three* more males than females. Again, there was an excess of males (89 more) in 1829, when Rev. Dr. Barry took the census. In 1850, there were 515 more females than males.

We have now in our corporate limits 21,000 souls; and should the ratio of increase continue for the next *ten*, as during the last *four years*, there will be in round numbers, 100,000 inhabitants. Not only our city, but the whole country is rapidly filling up. By the report of the United States census of 1850, we find that the aggregate population of Hudson county was 21,822, only 833 more than we now have in Jersey City, alone. From figures in our possession, and well-calculated estimates, we feel confident in stating the present census of the county to be at least 40,000; and we predict that on the 15th of May, 1855, it will number nearly 50,000; which fact, we shall, if living, endeavor to substantiate by actual canvass. Not the least important influence in increasing the population, is the manufacturing interest, which is fairly shown in the respective classifications of our male and female population.

From present appearance, no doubt, nearly the whole territory covered by our map will be incorporated in the city limits, and perhaps persons are now living who will see the greater part built on, and accommodating a population of 200,000 souls, for which we have already an abundant supply of pure and wholesome water.

State of New Jersey

L. S. { I, Charles G. McChesney, Secretary of State of the State of New Jersey, do hereby certify that the foregoing is a true copy of a deed recorded in Liber No. 1, of Deeds, &c., page 1, B. side, as taken from and compared with the original record now in my office.

In testimony whereof I have hereunto set my seal of office at Trenton, this eighth day of February, A.D. One thousand eight hundred and forty-eight.

CHARLES G. MCCHESNEY,

Secretary of State.

PETER STUYVESANT,

Director-General and Council of New Netherlands, to the town of Bergen.

We, underwritten, the late Director General Council of New Netherland, hereby certify and declare that, in the year One Thousand Six Hundred and Sixty-one, by us underwritten in quality aforesaid, was given and granted to the Inhabitants of the Village (or County Town) of Bergen, the Lands with the Meadows thereunto annexed, situate on the west side of the North River in Pavonia, in the same manner as the same was by us underwritten, presented to the Indians, and as the same was to us delivered by the said Indians pursuant to an Instrument of Sale and delivery thereof, being under date of the 30th January, Anno one thousand six hundred and fifty-eight; with this express condition and promise that the aforesaid Inhabitants of the before-named Village shall not be prejudiced in their Out-drifts, by means of any private collective dwellings (saving only the right of the already cultivated farms at Gemoenepaen). But that all such who have any Lands within the District of the before-named Village, and especially at Pemrepogh and Mingachquie, all such owners shall be obliged to remove their dwellings and place them in the Village or Town of Bergen, or by or about the neighbourhood of Gemoenepaen before-named. Conditioned, however, that the aforesaid owners (in case they should desire the same) should be permitted to share and divide with the Inhabitants of the before-named Village or Town, in the common Lands of the said Town, for and in the place and stead of their Lands lying at Pemrepogh and Mingachquie before-named.

[* And specially that the meadows laying near the Village or Town of Bergen, where the same begins at the west side along Kill Van Koll should be and belong to and for the use of the before-named Inhabitants of Bergen.]

And further, we, the underwritten, certify and declare that Michael Jansen, deceased, (before or about the time that the aforesaid Village or Town was laid out) for himself as also for and in behalf of his Brother-in-law Nicholas Jansen Bacher, did in our presence renounce all the right they had to the Pasture Ground laying behind Gemoenepaen for a common out-drift and Pasture between the aforesaid Village, or Town, and the neighborhood of Gemoenepaen before-named.

And lastly, that no more Land were given or granted to Dirch Clasen than Reghtpocques with the meadows thereunto belonging, as by the Ground Brief thereof may further appear. In testimony of the truth we have signed these with our own hands, in New York, the 26th October, Anno.†

WILLIAM PARDON, JAMES BOLLEN, Secretary and of the Council.

PATENT FOR A FERRY TO ARCHIBALD KENNEDY.

George the Second, by the grace of God, of Great Britain, France and Ireland, King, Defender of the faith, &c.

To all to whom these presents shall come, greeting.

Whereas, the convenient, speedy and safe *carriage*, transportation and conveyance of passengers, horses, goods, wares and merchandizes, from one place or one province to another is the life of trade and commerce; and whereas it has been humbly represented unto us by our loving subject Archibald Kennedy, Esquire, one of our Council of the neighbouring province of New York, that the County of Bergen is a growing county and yearly increases in its number of inhabitants and productions of all sorts of necessities, and that it lies the most contiguous to our city of New York, in our said province of New York; and, whereas there hath not hitherto been any regular ferry or passage boats, except from our said Jersey shore to our said city of New York, so as to transport or set over any passengers, goods or merchandizes, with any safety or certainty, to the great inconveniency and detriment of all our loving subjects, the inhabitants of both our said provinces. And, whereas the said Archibald Kennedy hath proposed and undertaken, though at very great expense and trouble, and without any probability of any present benefit or advantage, to build a boat or boats, scow or scows, erect a wharf or wharves, and do every thing necessary and commodious for the keeping up and employing a regular ferry or ferries for the transporting of passengers and horses, goods, wares, and merchandizes as aforesaid, providing he might obtain our letters patent, granting to him, his heirs and assigns, the sole liberty and privilege of keeping and employing a ferry or ferries, at such place or places, and in such manner and under such provisoes as hereafter mentioned. And we having always at heart the benefit, ease and safety of all our loving subjects, and being ready and willing to give proper encouragement to all those

who shall undertake to contribute to the same, we have thought fit to give and grant: and we do hereby, of our especial grace and mere motion, give and grant unto the said Archibald Kennedy, his heirs and assigns, the sole liberty and privilege of keeping, using and employing a ferry or ferries, at a place called Pavonia, alias Ahasimus, situate on Hudson's, or the north river, in our said province of New Jersey, and at a certain distance on each side the said place along the shore, that is to say, from the said place called Pavonia or Ahasimus, to the most southerly part of a place called Comunepau, down the said river, and up the said river from the said place, Pavonia or Ahasimus, a quarter of a mile beyond or above Weehawk, for transporting and carrying of passengers, goods, wares, and merchandizes, with the liberty of taking and receiving such sum and sums of money, ferriages and hire for the same, as hath been usually taken and received in such cases, or now is, or at any time hereafter shall be legally established or appointed for that purpose. To have and to hold the sole liberty and privilege, ferriages and hire aforesaid, to the said Archibald Kennedy, his heirs and assigns, to the sole and only proper use, benefit and behoof of the said Archibald Kennedy, his heirs and assigns for ever. And we do strictly forbid all our loving subjects to carry any passengers, horses, goods, wares or merchandizes, contrary to the liberty and privilege aforesaid, under the pain of our displeasure and the highest penalties the law can inflict, provided always and these presents are upon this condition and limitation, that the said Archibald Kennedy with all convenient speed shall provide a sufficient boat or boats, scow or scows, and sufficient persons or hands for the transporting, carrying and ferrying of passengers, horses, goods, wares and merchandizes as aforesaid, and the same being so provided shall from time to time and at all times hereafter, continue to keep, or cause to be kept, such boat or boats, scow or scows, in good and sufficient repair, with good and sufficient persons or hands, to give due attendance for the transporting, carrying and ferrying of passengers, horses, goods, wares and merchandizes as aforesaid, according to the true intent and meaning hereof, otherwise this present, grant and every matter and thing contained herein, shall cease, determine and be utterly void to all intents and purposes whatsoever.

In testimony whereof we have caused these our letters to be made patent, and the seal of our province of Nova Cesarea, or New Jersey, to be affixed. Witness our trusty and well-beloved William Cosby, Esq., Captain General and Governor in Chief, in and over our provinces of New Jersey and New York, and territories depending thereon in America, Vice Admiral of the same and Colonel in our army, &c. At Fort George, in the city of New York, this seventh day of January, in the seventh year of our reign, and in the year of our Lord, One Thousand Seven Hundred and Thirty-three.

State of New Jersey.

L. S. { I, Charles G. McChesney, Secretary of State of the State of New Jersey, do hereby certify that the foregoing is a true copy of a Patent recorded in Liber, C. 3, page 224, as taken from and compared with the original record in my office.

In testimony whereof I have hereunto set my hand and affixed my seal of office, at Trenton, this nineteenth day of January, A.D. one thousand eight hundred and forty-eight.

Secretary of State.

A SKETCH OF THE NEW JERSEY PILOT ESTABLISHMENT.

IN the winter of 1836-37, the public mind was appalled by the tidings of the awful catastrophe of the *Bristol* and *Mexico*, on the shore of Long Island. Censure was openly laid on the New York Pilots, for their absence from the coast: and the system of pilotage of the port of New York was severely reprobated. Several individuals, previously or then connected with maritime matters, and acquainted with the necessity of a radical change in regard to pilotage, promptly urged on the Legislature of New Jersey, then in session, the propriety of a New Jersey pilot establishment, in aid of the commerce of New York, and backed their earnest appeals by personally visiting Trenton, to forward their philanthropic views. The Legislature did not hesitate to act in accordance with the clearly expressed opinions of those who recommended the measure. February 8th, 1837, an act was passed, "to establish and regulate pilots," authorizing the Governor and Council to appoint, annually, *seven* commissioners, with the requisite power and authority to examine and license pilots. The first seven gentlemen so appointed were,

JOHN F. ELLIS and WM. G. HACKSTAFF, of Bergen (now Hudson) county.

J. DAYTON WILLIAMSON, LEWIS BOSWORTH, and BENJAMIN BEASTON, of Essex county.

LAWRENCE KARNEY, of Middlesex county, and

LEONARD WALLING, of Monmouth county.

The last named gentleman never met with the Board, nor acted as Commissioner, and dying soon after its organization, WM. T. RODGERS, then of Somerset county, was appointed in his place. The Board, when organized, selected without delay many experienced men, who, on due examination, were licensed as pilots. Several philanthropic gentlemen in Jersey City, aided by the generous efforts of the enterprising insurance offices and underwriters of the city of New York, soon provided the means for procuring an outfit of suitable pilot-boats. Twenty pilots were licensed within the first 4 months, and the New Jersey pilot system was fully and fairly under way. Capt. JOHN F. ELLIS, of Jersey City, was appointed the first president, and under his auspices success was insured. In August, 1839, the New Jersey pilot-boat "John McKean" foundered with all on board on the coast, during a severe gale, in which the New York pilot-boat "Gratitude" was also lost.

Capt. JONATHAN DAYTON WILLIAMSON departed this life in April, 1844, and the minutes of the Board record "this first breach in their number, so long and so harmoniously associated together (since its first establishment in 1837), as an event of intensely deep and solemn affliction." Capt. TIMOTHY EDWARDS, of Jersey City, was soon thereafter appointed to fill the vacancy. In April, 1845, Capt. EZRA NYE, of Newark, was appointed Commissioner, in place of Capt. EDWARDS. In December, 1849, Capt. BENJAMIN BEATON was lost at sea, by the foundering of his vessel, the "Ellen Sedgwick," off Absecom, and the Board was thus deprived of the services of one of its most indefatigable and worthy members. Capt. GARRET HIERS, of Middletown Point, Monmouth county, was appointed to the vacancy in April, 1850. In January, 1852, the New Jersey pilot-boat "Commerce," with four pilots, one apprentice, and a crew of five hands, was lost in a gale, off the Hook. March 26, 1853, Capt. JOHN F. ELLIS, who for sixteen years had most faithfully and zealously presided over the interests and deliberations of the Board of New Jersey Pilot Commissioners, was "gathered to

his fathers," *full of years and full of honors*. In April, 1853, J. M. CORNELISON, M.D., of Jersey City, was appointed Commissioner in place of Capt. WM. G. HACKSTAFF, who removed from the State, and was one of the first active and devoted originators of the Jersey pilot system, and to whose zeal and energy much credit is due for the interest the New York underwriters took in the enterprise. Capt. JAMES ROGERS, of Jersey City, was appointed in April, 1853, to fill the vacancy occasioned by the death of the late venerable President. The Board, as now organized, consists of

Capt. WM. T. RODGERS, of Jersey City, *President*

" LEWIS BOSWORTH, of Newark.

" LAWRENCE KEARNY, of Perth Amboy.

" EZRA NYE, of Newark.

" GARRET HIERS, of Middletown Point.

" JAMES ROGERS, of Jersey City.

" J. M. CORNELISON, M.D., of Jersey City, *Sec'ty.*

A change of the law now makes the appointment of Commissioners *triennial*. Only *eight* of the first licensed pilots are now in service. The remainder of the pilots, now on duty, have been made from apprentices, who having served the legal term and passed rigid yearly examinations, have been found qualified for promotion. *Twenty-seven pilots keep five boats, the "H. B. Hall," "Sylph," "Thomas H. Smith," "Mary Taylor," and "George Steers,"* in constant active employment, and well sustain the character of *worthy New Jersey pilots*. The last yearly return to the Governor and Senate of New Jersey reports 17,543 vessels which have been in charge, inward or outward bound; and accidents to vessels have been marvellously few. The competition now existing between the New York and New Jersey pilots is every way beneficial to the interest of commerce, and is carried on between the parties in a harmonious and creditable manner; former *rivalry* is forgotten, and all essay to carry out the benevolent views and wishes of those concerned in their appointment.

CUNARD DOCKS, JERSEY CITY.

THE British and North American Royal Mail Steamship Company, in the year 1840, ventured on the enterprise of running their steamers from Liverpool to Halifax, and thence to Boston. They began with five ships, the *Unicorn* being the pioneer ship of the line, under command of Capt. Douglass. Carrying the *mails*, under special authority and patronage of the English government, the first ships were the *Unicorn*, *Britannia*, *Columbia*, *Acadia*, *Caledonia* and *Hibernia*. Prospering in their great undertaking, they determined, in 1846, to run a line also to New York, or Jersey City, increasing the number and size of their ships. Some time was occupied in selecting a site for docks, and accommodation suitable for their expected business. Many situations around New York and elsewhere were examined by men of experience, among whom, beside those directly interested in the line, and some of their captains, were some gentlemen of *Jersey City*, who strenuously recommended the site of the present *Cunard Docks*. Among these were the Hon. D. S. Gregory, Messrs. Jas. G. King, H. Southmayd, and others.

After mature deliberation, the necessary arrangements were made; the docks, buildings and appurtenances were begun and finished, and leases made, to the mutual satisfaction of all parties. In *December, 1847*, the *HIBERNIA*, commanded by Captain Ryrie, a steamer of 1500 tons and 450 horse power, arrived as *pioneer* of the *new line*, (via Boston) at the docks, and was warmly greeted by our citizens. The monthly trips were, in process of time, succeeded by semi-monthly ones, as now continued. The docks, as now completed, extend, the *south one* 300 feet easterly from the bulkhead of *Atlantic street*, with a breadth of 50 feet; the *north dock* 432 feet in length, with breadth of 75 feet. On the north dock is a shed, capable of being enclosed in stormy weather, or at night, 300 feet in length, 50 feet broad, with the necessary offices for transaction of such business as concerns the lading and discharging of cargoes. Near at hand is the brick building appropriated for *Custom-house* purposes, where cargoes are received and stored, and where passengers' baggage, on the arrival of each steamer is duly examined. This *store-house* is 150 feet in length on *Grand street*, and 50 feet deep, three stories in height, substantially built and fire-proof. North of the *Custom-house Stores* is a building 145 feet in length, and 120 feet deep, for the storage of *coal* (the *Cumberland coal*, from Maryland, being altogether used and preferred), 3,500 tons of which may be stored here. North of this *coal shed* is a brick building 25 feet by 50 feet, used for the convenience of the officers and crews when in port. The depth of water in the docks or river is 4 fathoms at low water. Three large steamers can be (and *four* have been) accommodated here at the same time.

A few years after the ships began to run to Jersey City, their number was increased, and the new vessels built of larger size and greater power. A change was found necessary in the route of the line, and the ships now plying to Jersey City come and go direct from and to Liverpool. The cargoes of these ships, which have at times amounted to over 1000 tons each, are chiefly of the most valuable goods, silks, satins, laces, dry goods, cutlery, drugs and jewelry, imported from Europe, and pay a great revenue to our treasury, and employ a large number of hands of various trades. Officered by choice men, and with well disciplined crews, their passages have been made with great regularity and success. The peculiar advantages proffered by the *Jersey City* location, as a steam-boat station, have been manifested to general satisfaction. The prevalent north-west winds of our fall and winter are favorable to egress from the docks. The ice of our winters never for any length of time incommodes the wharves on our shores. The abundant space for all the requirements of the steamers could not elsewhere be so readily obtained, and the comparative *quiet* enables all concerned to carry on their duties and business arrangements with ease and promptitude. By aid of our well-arranged *river ferry*, so near to the Cunard Dock, passengers can be carried in a very short time, either to their selected hotel, dwelling, or railroad station. The freight or cargo is transported hence to the stores of the merchants, or to the Custom-house for examination, with less loss of time, and wear and tear of horse and equipage, than from many of the upper wharves of New York to the same localities. The *Cunard passenger line* is now composed of the *Arabia, Asia, America, Africa, Canada, Cambria, Europa* and *Niagara*, part of which run to *Boston*, while those constituting, for the time being, the line to this port, form a very regular and exact *ferry* between *Jersey City* and *Liverpool*. The *Andes, Alps, Taurus, Etna*, and *Jura*, of from 1,200 to 2,500 tons, form a *freight line*, and some of them have brought large and valuable cargoes, and taken back immense quantities of our pro-

ducts. The *Merlin*, *Petrel* and *Curlew*, controlled by the same Company, have traded hence, with many passengers and much freight, to and from Bermuda and St. Thomas. The great and increasing amount of trade has rendered this line and Jersey City known over the whole world, and while commerce exerts its benign influence, multitudes will rejoice to land on *our* SHORES.

FIRE DEPARTMENT.

THE Fire Department of Jersey City has had much attention paid to it by the authorities during the past year, and at the present time, it is in the most efficient and well-organized condition. Some additions of new houses, an alarm bell, and such accessories are required, which will no doubt be added during the present season. Of late, a very small number of fires have occurred, and if this state of affairs should fortunately continue, our insurance stockholders will have no cause to grumble at the dividend. At the present time the force consists of about 400 officers and men, 5 engines, 4 hose carriages, and 2 hook and ladder trucks.

Among their number will be found some of our most active, and intelligent citizens, and at the obsequies of their New York brethren, who were killed at the falling of Jennings's store in Broadway, we thought our Companies were the best looking body in the whole line.

Our firemen have formed the usual "DEPARTMENT FUND" for the benefit of disabled members and their widows and orphans. The funds already amount to a considerable sum, and benefits are being paid. The following are the names of the officers, etc.:

This is one of the most successful Savings Institutions that we have any knowledge of. It was established through the efforts of the Washington Temperance Benevolent Society of this city, and has been the indirect means of acquiring a competency for many who have availed themselves of its advantages. It still continues in the most flourishing condition.

* It has been announced that this Company will erect an elegant banking-house at the corner of Washington and Mercer streets during the present season.

MORRIS CANAL AND BANKING COMPANY,

Chartered by Special Act in 1844.

The Morris Canal is 102 miles in length, commencing at the Delaware River, opposite Easton, and extends to the Hudson River, at Jersey City. Principle office and place of business on the corner of Grand and Greene streets, in Jersey City. Under the present very efficient management, the business of the Company is rapidly increasing. In 1845, "*The Trade and Tonnage*" was 58,259, of which 28,291 was mineral coal. The total tonnage for 1853, was 467,288, of which 235,805 was mineral coal. It is estimated that at least 300,000 tons of mineral coal, and a proportionate increase in the general freight will occur during the present year.

The receipts during the year 1853, from tolls and other sources, amounts to \$188,902 42, being \$45,216 74 over the receipts of the previous year.

The current expenses for the same period have been \$92,056 89, leaving a profit of \$96,850 53. The following are the

HOBOKEN.

THE village of Hoboken, with its Elysian Fields, Sybil's Cave, serpentine walk, and shady retreats, has been, from an early period, the "great park" and pic-nic ground for pleasure seekers from the great city on the other side of the river; and it seems but yesterday that we were rigged out in holiday costume, and, landing from the "Fairy Queen," to enjoy *ice cream and flying horses* at Swift's, on the top of the hill. But the hill has vanished, and on its site is whole ranges of elegant edifices, to relieve over-crowded New York.

As early as 1840, many parties doing business in New York, selected Hoboken as a place of residence, and even before that time, the proprietors, the Messrs. Stevens, had the whole surveyed, and laid out in building lots, with wide and handsome streets and avenues, plots for public uses, &c., since which time it has rapidly advanced, and, at the present day, is quite a respectable city, both in size and importance.

Hoboken is connected with New York by three ferries: one running to the foot of Barclay street, another to the foot of Canal street, another to the foot of Christopher, and, it is understood, another is projected to the foot of Twenty-first. Access can be had to the city at all hours of the night or day, and the transit arrangements are well consummated.

Generally speaking, the dwellings in Hoboken are of the better class, and it would be scarcely possible to find a more healthy location.

Some considerable manufacturing has been done in Hoboken, and at its ship-yards specimens of naval architecture have been produced that have never been excelled.

The annexed documents and statistics were prepared by John M. Board, Esq., and will be interesting to our patrons in that section, and will also give others an idea of the extent of the place.

AN ACT

To divide the Township of North Bergen, in the County of Hudson, and to establish a new Township in said County, to be called the Township of Hoboken.

1. *Be it enacted by the Senate and general Assembly of the State of New Jersey, That all that part of the township of North Bergen, in the county of Hudson, lying within the following boundaries, to wit: Beginning at a point in the middle of Hudson river, due east from the mouth of Loss' or Sluce creeks; thence along the centre of said creek, the several courses thereof, to the great bend in the same, thence down the centre of the principal ditch on the west line of lands of John G. Costar, to the public road leading from North Bergen to Hoboken; from thence due south to the*

north line of Van Vorst township, thence along said north line easterly to the mouth of Eel creek, thence to the middle of Hudson river; thence northerly up and along the middle of said Hudson river, to the point of beginning, shall be, and the same is hereby set off from the township of North Bergen, and is hereby established into a new township, to be known by the name of "The Township of Hoboken."

2. *And be it enacted*, That the inhabitants of the said township of Hoboken shall be, and they are hereby constituted a body politic and corporate, and shall be styled and known as "the inhabitants of the township of Hoboken, in the county of Hudson," and shall be entitled to all the rights, powers, authority, privileges, and advantages, and subject to the same regulations, government, and liabilities, as the inhabitants of the other townships in the said county of Hudson are, or may be entitled, or subject to by the laws of this State; and in addition thereto, may raise, in the manner prescribed by law for other purposes, such moneys, as may from time to time be necessary for the erection and repair of such public buildings as the said township may thereafter require, in its corporate capacity.

3. *And be it enacted*, That the inhabitants of the said township of Hoboken, shall hold their first annual town meeting, at the Town Hall, in the village of Hoboken, in the township of Hoboken, on the day appointed by law, for holding the annual town meetings in the other townships in the said county of Hudson.

4. *And be it enacted*, That all paupers who may be chargeable to the township of North Bergen at the time this act shall go into operation, shall be chargeable to, and supported by, that township within the bounds of which they have acquired their settlements respectively, or in which said paupers may have resided at the time of acquiring their respective settlements; and all persons whose present settlement is in the township of North Bergen, and who shall hereafter become chargeable as paupers, shall be supported by that one of the township within the bounds of which they respectively resided at the time of acquiring their respective settlements, or within the bounds of which their respective settlements were acquired.

5. *And be it enacted*, That the poor-house farm, now vested in the townships of North Bergen and Bergen, with the buildings and improvements thereon, shall be vested in and remain to the townships of North Bergen, Bergen, and Hoboken, in their corporate capacity as townships, in common, in the same manner and form in all respects, and to all intents and purposes, the same as they are now vested in the said townships of North Bergen, and Bergen, provided always, that nothing herein contained shall be deemed or taken to alter, or lessen the share or interest in the said poor-house farm, which the township of Bergen had therein at the time of the passage of this act.

6. *And be it enacted*, That the township committees of the townships of North Bergen and Hoboken, shall meet on the Monday next after their first annual town meeting, at the house of Rachel Riker, in the township of North Bergen, at one o'clock in the afternoon, and shall then and there proceed, by writing signed by a majority of the members of each committee, to allot and divide between the said townships, all the property or moneys on hand or due, or to become due, in proportion to the taxable property and ratables, as valued and assessed by the assessor, within the respective limits of said townships at the last assessment, and may adjourn the said meeting from time to time, into such time and place as a majority of those present may think proper; and the township of Hoboken shall be liable to pay a just proportion of the debts, if any there be; and if any of the mem-

bers of the said township committees shall neglect to meet as aforesaid, those present may proceed to make such division, and their decision or a decision of a majority of them, shall be final and conclusive.

7. *And be it enacted*, That all persons residing within the limits of the said township of Hoboken, who would have been entitled to a vote at the next annual town meeting of North Bergen, if this act had not been passed, shall be entitled to vote at the next annual town meeting of the township of Hoboken.

8. *And be it enacted*, That the freeholders, inhabitants of each of the townships of Hoboken, North Bergen, and Bergen, respectively, shall, on the first Monday in May, in each and every year thereafter, by a plurality of votes of the said freeholders then met and assembled, elect and choose out of the whole body of the said freeholders, two persons out of each of the said townships of Hoboken and North Bergen, and four persons out of the said township of Bergen, as trustees of the freeholders, inhabitants of the said townships respectively; which said eight persons, so elected, shall be styled and known in law by the name of "The Trustees of the freeholders, inhabitants of the townships of Bergen, North Bergen and Hoboken;" which said eight persons, so elected and chosen, shall be and continue in office for and during the term of one year, and until others are chosen or elected in their stead; and shall be invested with, and hold, and enjoy, all the rights, privileges, powers, and authorities, whatsoever, which are now vested in, or of right belong to, the trustees of the Freeholders, inhabitants of the townships of Bergen and North Bergen; and the first elections for the two above-mentioned trustees for the township of Hoboken, shall be held at the town hall in the village of Hoboken; provided that nothing in this act shall be so construed as to impair the legal or equitable rights (if any) of the townships of Jersey City and Van Vorst, to any funds or other property now held by the township of Bergen and North Bergen.

9. *And be it enacted*, That the persons heretofore chosen or appointed trustees of the freeholders, inhabitants of the township of Bergen, and of the township of North Bergen, and now acting as such trustees, shall be and remain trustees for the purpose for which they were chosen and appointed, until other trustees are chosen in the manner prescribed by this act.

10. *And be it enacted*, That all deeds, mortgages, bonds, bills, notes of hand, securities, engagements, and contracts of every kind and nature, whatsoever, and all interest, property, and estates, real and personal, of every nature and kind, given, granted to, had, held, possessed, and enjoyed by the trustees of the freeholders, inhabitants of the township of Bergen, and of the township of North Bergen, shall be vested in and remain to the trustees of the freeholders, inhabitants of the township of Bergen, and of the township of North Bergen, and of the township of Hoboken, in the same manner and form, in all respects, and to all intents and purposes the same as they are now vested in, held, possessed, or enjoyed, by the trustees of the freeholders, inhabitants of the township of Bergen, and the township of North Bergen; and that all grants, conveyances, mortgages, bonds, notes, contracts, and engagements, of every nature and kind, given, made, done, and entered into, by the trustees of the freeholders, inhabitants of the township of Bergen, and the township of North Bergen, and that all legal claims and demands, by any person or persons, body politic or corporate, of every nature and kind, against them the said trustees of the freeholders, inhabitants of the township of Bergen, and of the township of North Bergen, shall be binding upon, and effectual and valid, against the

trustees of the freeholders, inhabitants of the township of Bergen, and of the township of North Bergen, and of the township of Hoboken; and that they, the said trustees of the freeholders, inhabitants of the township of Bergen, the township of North Bergen, and of the township of Hoboken, may, in their corporate capacity, sue and be sued, implea and be impleaded, for, or on account of any cause or causes of action, whatsoever, now accrued or hereafter to accrue, in favor of or against the said trustees of the freeholders, inhabitants of the township of Bergen, and of the township of North Bergen, in like manner and as fully, to all intents and purposes, as the said, the trustees of the freeholders, inhabitants of the township of Bergen, and the township of North Bergen, might have sued or been sued, impleaded or been impleaded, in case this Act had not been passed.

11. *And be it enacted*, That the election of all the township officers, of the township of Hoboken, shall be by ballot; and the inhabitants of the said township, qualified by law to vote at town meetings, shall, by ballot, determine the amount of money to be raised for such purposes, as are, or may be authorized by law.

12. *And be it enacted*, That at the first annual town meeting to be held in the township of Hoboken, on the day appointed by law for that purpose, in the other townships in the county of Hudson, the judge, inspectors, and clerk, shall be chosen, *viva voce*, and at all subsequent elections in the said township for the election of township officers, the judge, inspectors, and clerk, elected at the next preceding township election, shall be the officers, and if absent, others shall be chosen in their stead, in the same manner as vacancies are supplied by law at the annual elections.

13. *And be it enacted*. That the judges, inspectors, and clerks, for holding any annual or special township election, shall severally be entitled to the sum of one dollar and fifty cents per day for their services, to be paid by the township committee of the township of Hoboken, out of the funds of said township.

14. *And be it enacted*, That this act shall take effect on the second Monday of April next.

Approved March 1, 1849.

AN ACT

To authorize the inhabitants of the townships of North Bergen, Hoboken, Bergen, and Van Vorst, in the county of Hudson, to raise money by tax, or otherwise, for the support of free schools, and for the building, repairing, and furnishing school-houses.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That hereafter it shall be lawful for the inhabitants of the townships of North Bergen, Hoboken, Bergen, and Van Vorst, in the county of Hudson, at their annual town meetings, by a vote of a majority of the inhabitants so assembled, to raise by tax or otherwise, in addition to the amount received from the State, and apportioned to their use for school purposes, such sum or sums of money, as they may deem proper for the support of public schools, and building, furnishing, and maintaining public school-houses; provided, that not more than two thousand dollars be so raised in any one year in any one of said townships.

3. And be it enacted, That the fourth section of an act entitled "An act to establish public schools," passed the seventeenth of April, eighteen hundred and forty-six, so far as relates to the said townships of North Bergen, and Van Vorst, in the county of Hudson, is hereby repealed.

4. And be it enacted, That this act shall take effect immediately.

Approved March 5, 1850.

AN ACT

To prevent swine from running at large in the townships of Hoboken and Van Vorst, in the county of Hudson.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for any person or persons to drive or convey to the public pound any swine found running at large in said townships of Hoboken and Van Vorst, in the county of Hudson, and impound the same; and the keeper or keepers of the public pound in the said townships are hereby authorized and required to receive all such swine, and the party shall have 25 cents per head for impounding each swine, and the keeper shall have the same fees for letting in and out of the pound, and for impounding, feeding and attending, 5 cents per head for every 24 hours they shall continue in the pound; and if the owner or owners of the said swine, so impounded, shall not pay the charges aforesaid within four days after such swine shall be impounded, and take said swine away, it shall then be the duty of said pound-keeper to set up advertisements in at least three of the most public places in said villages, respectively, where any swine is or are so impounded, particularly describing such swine, and giving at least fifteen days notice of an intended day and place of sale; and if the owner or owners of such swine do not appear and redeem the said swine before the time so notified, the said pound-keeper shall sell the same accordingly, and out of the moneys arising from such sale, shall pay the charges of conveying to the pound, and retain in his hands his fees for impounding, keeping and feeding said swine, and twenty-five cents for the sale of each swine and collecting the money, and return the surplus to the owner of the swine; and if no owner shall appear and claim such overplus within six months after such sale, the same shall be paid to the overseer or overseers of the poor of the township, for the use of the poor of said township.

2. And be it enacted, That this act shall take effect immediately.

Approved March 7, 1850.

SUPPLEMENT TO AN ACT

Entitled, "An act to divide the township of North Bergen, in the county of Hudson, and to establish in said county a new township, to be called the township of Hoboken."

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the legal voters of the township of Hoboken, in the county of Hudson, be, and they are hereby authorized to raise, in the manner prescribed by law for other purposes, at their annual town meetings, any sum of money they may deem proper, not exceeding five hundred dollars, to be solely and exclusively applied, by the town committee, to the procuring, repairing, maintaining, and preserving the engines, engine-houses, reservoirs of water, ladders, buckets, fire-hooks, and all necessary implements and machines, and to such other incidental expenses as shall to the said town committee appear best calculated to secure the property of their fellow citizens from injury or destruction by fire.

2. And be it enacted that this act shall take effect immediately.

Approved March 18, 1852.

A SUPPLEMENT TO THE ACT

Entitled, "An act to divide the township of North Bergen, in the county of Hudson, and to establish a new township in said county, to be called the township of Hoboken."

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the township committee of the township of Hoboken, in the county of Hudson, shall have power to make and enforce all ordinances necessary for grading, regulating, paving, curbing, guttering, making side and cross-walks in, and determining the width of side-walks, in Hudson, Washington, Bloomfield, and Garden-streets, in the village of Hoboken, in the township of Hoboken aforesaid, for assessing the costs and expenses of the same equitably upon the owners of property who may be benefited thereby, and for collecting the amount thereof from the persons against whom such assessment shall be made respectively.

2. And be it enacted, That no ordinance of said township committee shall be valid or take effect unless concurred in by three, at least, of the members of said township committee; and whenever any ordinance regulating any of said streets, or the grading thereof, or regulating the width of side-walks therein, or regulating any of said streets, or the grading thereof, or regulating the width of the side-walks therein, shall be passed, a map thereof, drawn in conformity with the requirements of such ordinance, shall be made under the direction of said township committee, and placed in the office of the clerk of said township, for the inspection of all persons interested in such improvements, and to remain as evidence in all causes and matters relating to the same.

8. And be it enacted, That it shall be lawful for said township committee, in each and every case where any of the improvements by this act authorized to be made shall be prayed for as hereinafter provided, and an ordinance passed by the township committee for that purpose, to appoint three discreet, impartial, and disinterested persons, residents in Hoboken aforesaid, who shall be duly sworn or affirmed to assess, upon principles of equity, and according to the benefit which the owner or owners thereof may derive therefrom, the real estate in said village, for the cost and expenses of making such improvements, respectively, and the expense of making such assessment, which assessment, when made, shall be subscribed by said assessors, and filed in the office of the clerk of Hoboken township; and in case the moneys therein assessed shall not be paid by the persons liable therefor, respectively, shall not be paid to said township committee within thirty days after the same shall have been confirmed, then in such case the township committee may proceed the lien hereinafter created upon the said real estate; provided that no assessment shall become final until after notice thereof shall have been published by the said three assessors, by notice in writing, set up in five of the most public places in Hoboken aforesaid, for the space of twenty days, at least, and until the same shall have been confirmed by the said township committee, of the meeting of which committee like notice shall be given, and to whom any person aggrieved may at that time appeal for relief; and if, by reason of such appeal, deficiencies shall arise in the amount necessary to complete such improvement, the same shall be made up, assessed and collected in like manner; provided, that no such assessment shall be made, unless upon the petition, in writing, of the owners of two-thirds, at least, of the lots in any street in which such improvement shall be applied for.

4. And be it enacted, That all assessments which shall be made or assessed upon any real estate in said village, by virtue of this act, shall be and remain a lien thereon, from and after the time when the same shall be assessed, notwithstanding any subsequent devise, descent, alienation, mortgage, or other incumbrance thereof; and if the full amount of any such assessment shall not be paid and satisfied within the time limited for the payment thereof, it shall and may be lawful for the township committee

to cause such lands, tenements, or real estate, to be sold at public auction for the shortest time for which any person will agree to take the same and pay such assessment, or the balance thereof remaining unpaid, with the interest thereon, and all costs, charges, and expenses, and to execute under their hands and seals, a declaration of such sale, and deliver the same to purchaser; and to such purchaser, his executors, administrators, or assignees, shall, by virtue thereof, lawfully hold and enjoy the said lands, tenements of real estate, for his, her, and their own use, against the owner or owners thereof, and all persons claiming under him or them, until his or her said time shall be completed and ended; provided, said township committee shall have first caused such sale to be advertised, by advertisements put up in at least five of the most public places in said village for the space of sixty days previous thereto, which advertisements shall describe the said lands, tenements, or real estate so sold, may be redeemed by the owner or owners, or mortgagee or mortgagees thereof, within two years from the date of the sale, on the payment of the amount of the purchase money, with interest, at the rate of twelve per cent. per annum from the day of sale, and all expenses necessarily incurred thereupon; provided, also, that in case the same shall be paid as herein before provided, by any mortgagee, then the same shall be recoverable under the mortgage which said mortgagee or mortgagees may hold on such real estate, as if the same were secured by said mortgage.

5. And be it enacted, That this act shall be a public act, and go into effect immediately after the passage thereof.

6. And be it enacted, That nothing in this act shall be construed to authorize its application to any part of the streets named in this act, north of the northerly line of Fifth street in Hoboken aforesaid, without the consent of the owners of the lots situated thereon respectively.

Approved March 19, 1852.

A further supplement to an act entitled, "An act to divide the township of North Bergen, in the county of Hudson, and to establish a new township in the said county, to be called the township of Hoboken.

Approved March 1, 1849.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the township committee of the township of Hoboken, in the county of Hudson, shall have power and authority to make and enforce all ordinances necessary for grading, regulating, paving, curbing, guttering, and making side and cross walks, in the several streets and public alleys now laid out, or hereafter to be laid out, in the township of Hoboken aforesaid, south of the northerly line of Fifth street, except only such and so many of said streets as are mentioned in a supplement to said act, approved March nineteenth, eighteen hundred and fifty-two, and that for the purpose aforesaid, the township committee shall have all the powers and perform all the duties mentioned in and prescribed by the aforesaid supplement, subject to the provisos therein contained, except that in all cases where a majority of persons assessed shall feel aggrieved by said assessment, the same shall be referred to a board of arbitrators, who shall be residents of the county of Hudson, and who shall be disinterested in said assessment, two of whom shall be appointed by the town committee, two by the parties assessed, and one to be chosen by the four selected, whose award shall be final, and that the same lien shall be created upon the lots of land respectively that may face upon the streets or alleys aforesaid, upon which such improvements, or any part thereof, may be made, as that mentioned in the fourth section of said supplement, and that the cost and expense of any of the said improvements made or to be made, facing on any

of the public squares marked out in the original map of said town of Hoboken, shall be assessed proportionably upon all the land in said township; and that if any assessment now made or hereafter to be made, shall exceed in amount upon any one of said lots, a sum of money equal to the proportionate amount against such lot, upon such general assessment, the said committee be directed and required to reduce such assessment to the proportionate amount, and that said committee be required to refund to the person or persons entitled to the same, any sum or sums of money that may have been collected by them upon any assessment for the improvements aforesaid, facing on said squares, over and above such proportionate amount, and that said township be made liable to pay the same if not so refunded; so much of this section as relates to side-walks, curbing, and guttering shall not be construed as applying to public lanes and alleys.

2. And be it enacted, That the inhabitants of the township aforesaid shall have power and authority at their annual town meetings to vote by ballot for such sum or sums of money as they may think proper, to be expended by the said township committee in the laying down of gas-pipes, erecting gas-posts, burners, and reflectors in the streets of Hoboken, in said township, and for obtaining a sufficient supply of gas, and for all other purposes necessary for the lighting of said streets with gas; provided, that the public travel shall at no time be effected or impeded by the laying of such pipes, or the erecting of said posts, and the streets, side and cross-walks shall not be injured, but shall be left in as good and perfect condition as before the laying of the said pipes, or the erecting of the said posts; and that the assessor and collector of said township shall be bound to assess, collect, and pay over the sum or sums of money so voted to be raised for such purpose in the same manner that taxes for township purposes are assessed and collected.

3. And be it enacted, That the overseer of the highways of said township of Hoboken, under the direction of the township committee of said township of Hoboken, upon the complaint in writing made before said committee by any inhabitant of said township, shall be authorized and required to remove any nuisance or obstruction from the streets and alleys of said town of Hoboken; provided always, that said overseers shall, before the removal of any such nuisance or obstruction, give, or cause to be left at the residence of the person or persons who may have caused the same, if he, she, or they are to be found in such township, a notice in writing requiring the removal thereof within three days from the date of such notice, and, if the same be not removed within the time mentioned in said notice, the person or persons who may have caused the same shall be liable to pay all necessary expenses to be incurred in the removal thereof, by such overseer, to be recovered in an action of debt, to be brought in the corporate name of said township, before any justice of the peace of said county of Hudson, with costs of suit.

4. And be it enacted, That this act shall take effect immediately.

Approved February 18, 1853.

AN ACT

To incorporate Hoboken Fire Company, Number 1.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That W. W. Shippen, J. W. Van Boskerck, and all such other persons, not exceeding sixty-five, as, are, or shall become, associates of Hoboken Fire Company, Number 1, be, and they are hereby constituted and declared to be a body, politic and corporate, in fact and in law, by the name of Hoboken Fire Company, Number 1.

2. And be it enacted, That the persons entitled to vote at the annual town meetings in the township of Hoboken shall, on the second Monday in April next, at the annual town meeting in said township, and annually thereafter elect, by plurality of votes, seven persons, as trustees of said corporation hereby created, who shall hold their office for the term of one year, and until others are chosen in their stead.

3. And be it enacted, That the estate, both real and personal, now belonging to, or hereafter to be acquired by said corporation, is hereby vested in the said trustees and their successors, in trust, however for the benefit of the said corporation: the same trustees may, from time to time, make and enforce such by-laws and regulations for the acquisition, control, and management thereof, in furtherance of the objects of said incorporation, as they shall deem expedient: provided, the same are not inconsistent with the constitution and laws of this State, or of the United States; the said trustees shall have power to issue certificates of membership, and annul the same, whenever the same shall, in their judgment, be deemed essential for the protection of the rights and good standing of the Company; a majority of said trustees shall constitute a quorum for the transaction of business; they shall keep a book of minutes of their proceedings, which shall be open to the inspection of all persons interested.

4. And be it enacted, That the said Company, by their trustees, shall have succession, and shall be capable of suing and being sued, pleading and being impleaded, answering and being answered unto, defending and being defended, in all courts of judicature whatsoever: and they and their successors, respectively, may have and use a common seal, and have power to make, alter, and renew the same at pleasure; and by their common seal, may make, enter into, and execute any contract or agreement, touching and concerning the objects of said corporation; and the said trustees shall and may acquire and hold real estate, for the benefit of said corporation, necessary for the objects thereof; provided, the same shall not exceed in value the capital stock of said Company.

5. And be it enacted, That the capital stock of said Company shall not exceed the sum of four thousand dollars, which shall be solely and exclusively applied, by the said trustees, to the procuring, repairing, maintaining, and preserving the engines, engine-houses, reservoirs of water, ladder, buckets, fire-hooks, and all necessary implements and machines, and to such other incidental expenses, as shall to the said trustees appear best calculated to secure the property of their fellow citizens from injury or destruction by fire.

6. And be it enacted, That John Van Boskerck, E. A. Stevens, D. M. Demarest, J. W. Brower, Hoyt Sandford, Philip Kipp, and G. W. Morton, shall constitute the first board of trustees under this act, who shall respectively hold their offices until the second Monday in April next, and until others are chosen in their stead.

7. And be it enacted, That vacancies, occasioned by death, resignation, or refusal to serve in the board of trustees, shall be filled by the remaining trustees.

8. And be it enacted, That the members of said Company shall have power to elect their foreman and other necessary officers, and may, from time to time, make by-laws and regulations for the admission of new members, and for their own personal government, subject always to the approval of the said trustees; provided, said by-laws and regulations are not inconsistent with the constitution and laws of this State or of the United States.

9. And be it enacted, That no person shall be considered a member of

said Company, until he shall have received a certificate of membership from said trustees; and upon said trustees entering an order in their book of minutes, annulling a certificate of any member, the person, whose certificate is thus annulled, shall be no longer considered a member of said Company. No certificate shall be given, at any time, to honorary members.

10. And be it enacted, That all persons, for and during the period of their actual membership in Hoboken Fire Company, Number 1, shall be exempted from serving as jurors in the court of Hudson county, and, also, from militia duty, in time of peace.

11. And be it enacted, That this act shall take effect immediately, and the legislature may, at any time, alter, amend, or repeal this act, whenever the public good may require.

Approved, February 28th 1849.

A FURTHER SUPPLEMENT to the act entitled "An Act against Usury," approved April tenth, eighteen hundred and forty-six.

1. Be it enacted, by the Senate and General Assembly of the State of New Jersey, that upon all contracts hereafter made in the county of Hudson or in the county of Essex, and city of Paterson in the county of Passaic, in this State, for the loan of or the forbearance or giving day of payment for any money, wares, merchandise, goods or chattels, it shall be lawful for any person to take the value of seven dollars for the forbearance of one hundred dollars for a year, and after that rate for a greater or less sum, or for a longer or shorter period, anything contained in the act to which this is a supplement to the contrary notwithstanding; provided, that each one of the parties to such contract shall, at the making thereof, reside or be actually located either within the limits of the said two counties of Hudson and Essex and the city of Paterson, county of Passaic, or out of the State.

2. And be it enacted, That this act shall take effect immediately.

LAW S OF NEW JERSEY.

AN ACT to incorporate the Fire Department of the Township of Hoboken, in the county of Hudson.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the male inhabitants of the Township of Hoboken, in the county of Hudson, between the ages of twenty-one and fifty-five years, be and hereby are created and declared to be a body politic and corporate, under the name and style of "Fire Department of the Township of Hoboken, in the county of Hudson."

2. And be it enacted, That said inhabitants shall have power at any time hereafter to form such and so many fire engines, hose and hook and ladder companies, as they may deem desirable for the purpose of protecting the property of said township from damage or destruction by fire; provided, not more than one fire engine company be formed to every three thousand inhabitants of said township, and that every such company be composed of not more than fifty men; and provided also, not more than one hook and ladder, or hose company, be formed to every six thousand of said inhabitants, each to be composed of not more than twenty-five members.

3. And be it enacted, That the legal voters of said township shall, on the second Monday in April next, at the annual town meetings of said township, and annually thereafter elect, by plurality of votes, seven persons, as trustees of the corporation hereby created, who shall hold their office for the term of one year, and until others are chosen in their stead; and that the present trustees, elected under an act entitled "An Act to incorporate Hoboken Fire Company, Number One," approved February twenty-eight, one thousand eight hundred and forty-nine, shall be the trustees of this corporation, until the first trustees are elected under this act, and the said trustees, now elected, or hereafter to be elected, by a majority of their number, shall have power to grant, or annul, a certificate of membership of either of said fire engine, hook and ladder, or hose companies, and that such certificate shall be necessary to constitute membership of any such company. No certificate shall be given at any time to honorary members.

4. And be it enacted, That the estate, both real and personal, now belonging to the corporation created by the act in the last section referred to, or hereafter to be acquired under this act, is hereby vested in the said trustees and their successors, in trust, always for the benefit of the said corporation hereby created; the said trustees may from time to time make and enforce such by-laws and regulations for the acquisition, management and control in furtherance of the objects of this corporation, as they shall deem expedient; provided, the same are not inconsistent with the constitution and laws of the United States or of this State; a majority of said trustees shall constitute a quorum for the transaction of business.

5. And be it enacted, That the inhabitants of the township of Hoboken, aforesaid be and they are hereby authorized at their annual town meeting

to vote for, assess and collect, in the same manner that the other taxes of said township are voted for, assessed and collected, any sum of money not exceeding twenty-five hundred dollars annually, which money, when collected, shall be paid over by the collector of said township to the chairman of said board of trustees, and take his receipt for the same, as a sufficient voucher, which money shall be solely and exclusively applied, by the said trustees, to the procuring, repairing, maintaining and preserving the engines, engine-houses, cisterns or reservoirs of water, ladders, buckets, fire-hooks and all necessary implements and machines, and to the purchase of real estate necessary for such houses, and to such other incidental expenses as shall to the said trustees appear best calculated to secure the property of said inhabitants from injury or destruction by fire.

6. And be it enacted, That the said corporation shall be capable of suing and being sued, pleading and being impleaded, answering and being answered unto, defending and being defended, in all courts of judicature whatsoever, and may have and use a common seal, and have power to make and alter the same at pleasure, and by their common seal may make, enter into and execute any contract or agreement, touching and concerning the objects of said corporation.

7. And be it enacted, That duly constituted members of said department (of which the present members of said Hoboken Fire Company, Number One, duly commissioned, shall be members during the continuance of their present commission) shall have power to elect, by plurality of votes, a chief engineer of said department, who shall hold his office for one year, and until another shall have been chosen to succeed him, his election having first been confirmed by a majority of said trustees; provided, he may at any time be removed, if desired by two-thirds of such members, in which case and upon the request of two-thirds of said members, a new election shall be held to supply his place.

8. And be it enacted, That vacancies in the said board of trustees, occasioned by death, removal, or refusal to serve, shall be filled by the remaining trustees.

9. And be it enacted, That all persons during the period of their actual membership of either of the companies organized in and by the said department, shall be exempt from serving as jurors in all of the courts of Hudson county, and also from all militia duty, and military tax in time of peace; and all persons having served as a member of said department for the period of ten years, and having received a certificate from said trustees of such service, shall be forever exempt from such duty and tax in said county.

10. And be it enacted, That the said act entitled, "An Act to incorporate Hoboken Fire Company, Number One," and an act entitled supplement to an act entitled "An Act to divide the township of North Bergen, in the county of Hudson, and to establish in said county a new township, to be called the township of Hoboken," approved March eighteenth, eighteen hundred and fifty-two, and all other acts or parts of acts inconsistent with this act, be and the same are hereby repealed.

11. And be it enacted, That the President of said trustees shall file a true and correct list of all the members of each fire company in said township, within twenty days after his election, in the office of the Clerk of the County, under a penalty of one hundred dollars for neglect of such duty, and which said penalty may be recovered from such President, in action of debt in the name of the township of Hoboken, for the benefit of said township.

12. And be it enacted, That this act shall go into effect immediately.

Approved March 15, 1854.

HUDSON.

THE town of Hudson is situated on Bergen Heights, in the township of North Bergen, and about a mile and a half from the Jersey City and Hoboken ferries. From the former ferry a capital line of omnibusses run every few minutes during the day and evening. As if by magic, as it were, a young city has sprung up here, in which we find, by actual canvass, there was on the first day of June, 2,633 inhabitants, a large majority of whom do business in the city of New York. Streets have been laid out, and are rapidly being built upon.

Bergen Heights is celebrated as being one of the most elegant locations extant, and the view presented from its summit is unsurpassable. Recently many elegant residences have been erected on Pallisade avenue, and the prices of lots on the east side of that thoroughfare is fast approaching those of up-town lots in New York.

In the immediate vicinity are the fast-growing villages of West Hoboken, Waverley and South Bergen, each of which will be regularley canvassed, and the census taken for our next directory.
