The **Dyeing of Silk, Woolen and Fancy Goods**, (including the re-dyeing and cleansing of garments, such as Silks, Satin, Crape, Cloth, Merino, Velvet, and other DRESSES, SHAWLS, &c., &c., &c.), has, for a long term of years, occupied the close attention of the undersigned at Staten Island. For the last **EIGHTEEN YEARS** it has been their exclusive business, for which they have built up a new establishment at Staten Island, now the most extensive for this business in the country, and as far as known, in the world. All the improved appliances and apparatus of the art have been here brought into requisition; the most competent and expert of Foreign Dyers and Chemists have been induced to work in their establishment, and for large fees, to impart the important modern discoveries of European dyers. They have also, at present, correspondence with an experienced scientific Chemist and Dyer in Elberfeld on the Rhine (in the neighborhood of which are the most important dyeing establishments of Europe), who is engaged to transmit to us any new discoveries or methods which may there be brought out.

The friends and customers of the undersigned, some of whom have been such for nearly *Thirty-seven Years*, are aware of the great improvement and *steady advance* which has been made and sustained, and can bear witness that in the last few years many great difficulties have been overcome, so that in very many styles of Silk, Satin, Merinos, &c., they dye and refinish very nearly (in some cases quite) to resemble new goods.

Especial effort and expense has been devoted to the **Dyeing and Refinishing Satin and Tuffeta Ribbons**, and they are now enabled to do them in a style *new in this country and altogether superior*.

As a natural result of these extraordinary efforts and liberal expenditures, they believe themselves to be far in advance of all their competitors, and by strict unwearied perseverance, mean to continue so, assured that the community can readily discover merit, and will ever (as heretofore) sustain it.

LACE AND MUSLIN CURTAINS, CARPETS, RUGS, TABLE COVERS, &c., CLEANED AND RE-FINISHED. DAMASK AND MOREEN CURTAINS beautifully DYED. Also, RIBBONS, TRIMMINGS, GALLOONS, GIMPS, &c., &c.,

CRAPE SHAWLS DYED in the most brilliant shades of Scarlet, Crimson, &c., or the more delicate and grave colors. Broche and Crape Shawls cleaned in the best manner.

SILK DRESSES AND GARMENTS CLEANSED SUCCESSFULLY EITHER RIPPED OR WHOLE. LINEN SHADES, CHINTS, &c., CLEANED AND GLAZED.

Goods received and returned by express.

**Scrimshaw Pavement Co.**

# Scrimshaw Pavement Co.

OFFICE,

81 MONTGOMERY ST., JERSEY CITY.

Streets and Sidewalks, Carriage Ways and Walks in  
Public and Private Grounds, Warehouse, Stable  
and Cellar Floors.

Among the merits peculiar to this pavement are the following:

It can be laid in one continuous piece, in any shape and on any grade.

It cannot be penetrated by frost, water, weeds or rats.

The gradual reduction of its surface equals that of stone; consequently it is free from dust and mud.

Draught is reduced to a very low point; carriage wheels are unheard, while the audible tramp of horses' feet gives ample warning to pedestrians.

The jar and straining of vehicles is almost annihilated, and their wear from these important causes becomes nearly imperceptible.

Being impervious to frost and water, the smooth, even surface is preserved, while it offers a more secure footing for man and beast than any other pavement in use.

It emits no unpleasant bituminous odor when completed, and the facility with which repairs are made, and the prices at which it is offered, are noteworthy advantages.

While the fluid and solid elements of wood inevitably decay, there is no element in the Scrimshaw that is subject to decomposition.

As it contains powerful disinfectant and antiseptic qualities, its general use is of the greatest conceivable importance to the public health.

## FOR SIDEWALKS.

This pavement for flagging may fairly claim to surpass all others now in use. Even the costly dressed blue stone, 10 feet square, worth \$1.50 per square foot, is liable to heaving with frost and being broken; while with this material an artificial stone flag can be laid 100 or 1,000 feet in length, without a seam, not liable to breakage nor to having edges lifted by frost, an advantage duly appreciated by all that ever stubbed a tender toe.

The SCRIMSHAW has been thoroughly tested for nine years. There is no room for doubt now that bituminous pavements are the coming pavements. The facts before the public in Paris and Brooklyn prove this. All other concrete pavements laid in this country are at present experimental merely, and an imitation and infringement of the SCRIMSHAW patent, and have, so far—although in some cases they promise well—proved to be, in two or three years, an entire failure. This Company guarantees their pavement in all cases; and if, through some mishap, it is not right at first, the Company will make it right; and while reminding the public that our pavement is not in its best condition at first, and that age and use improve it, we insist that this is the best guaranty of permanent durability—and we know of no artificial method of hardening these pavements which does not seriously injure them.

TESTIMONIALS TO ITS MERITS FURNISHED AT THE OFFICE.

# SHEPARD'S SUPERIOR RANGE. NEW HEATER OVENS.

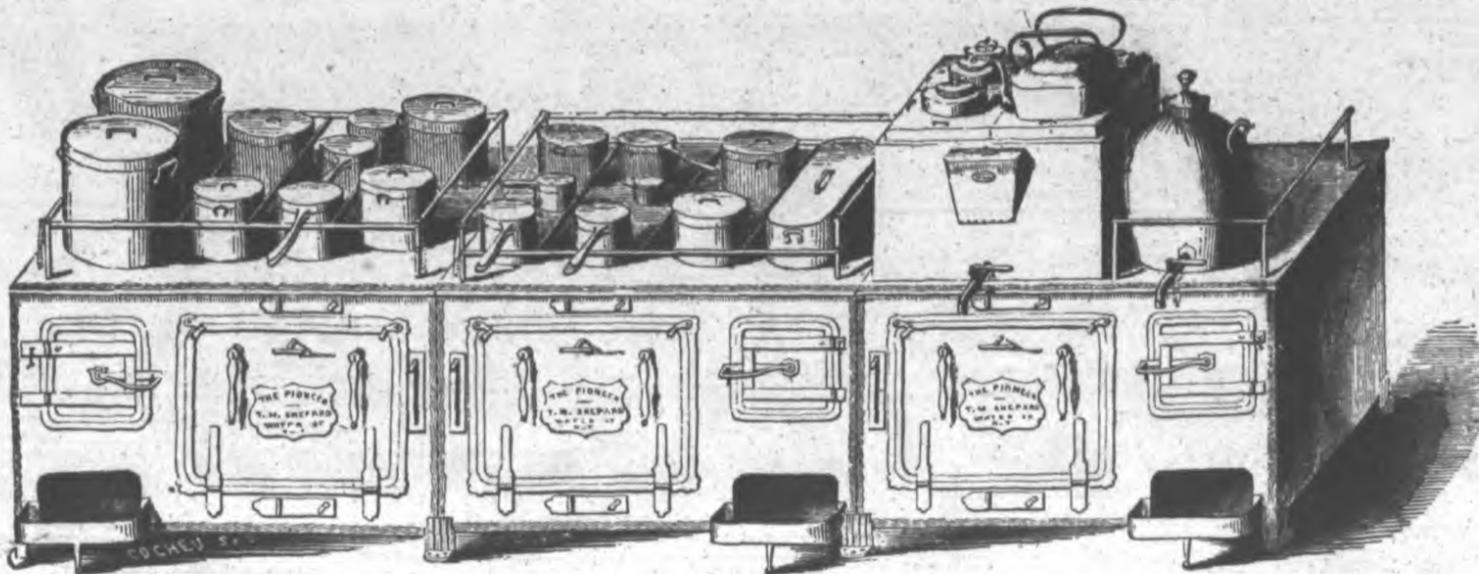

GOOD BAKERS—Nothing superior in baking qualities can be desired. Good Roasters—Unexceptionable in completeness, with tin roasters. BROILING—Without smoking the meats. Boiling—Quickly over the entire top. Hot Water—An unbounded supply. ECONOMICAL—Using very little fuel. DURABLE—Standing even hard usage with little wear. STRONG—The proper metal in the right place makes them strong and serviceable. EASILY MANAGED—No person can fail to successfully operate one of these ranges on their first trial.

The great popularity and unprecedented sale of these Ranges prove conclusively that the public have met the introduction of a first class article as it merits.

No range has been offered which so successfully and completely fills all the requirements of superior finished cooking, and which at the same time proves so economical in fuel as to excite surprise.

With facilities for heating water unsurpassed, arrangements for roasting of the most complete kind, and two extra large ovens for baking, no family can fail to be pleased with its operation.

## The Pioneer—Cunard Pattern.

A splendid outfit for Steamships. This style of GALLEY RANGE has ever been in use on the "CUNARD" Steamships. Its success is evidence of its usefulness. LARGE OVENS, AND SUPERIOR BOILING AND STEWING CAPACITY.

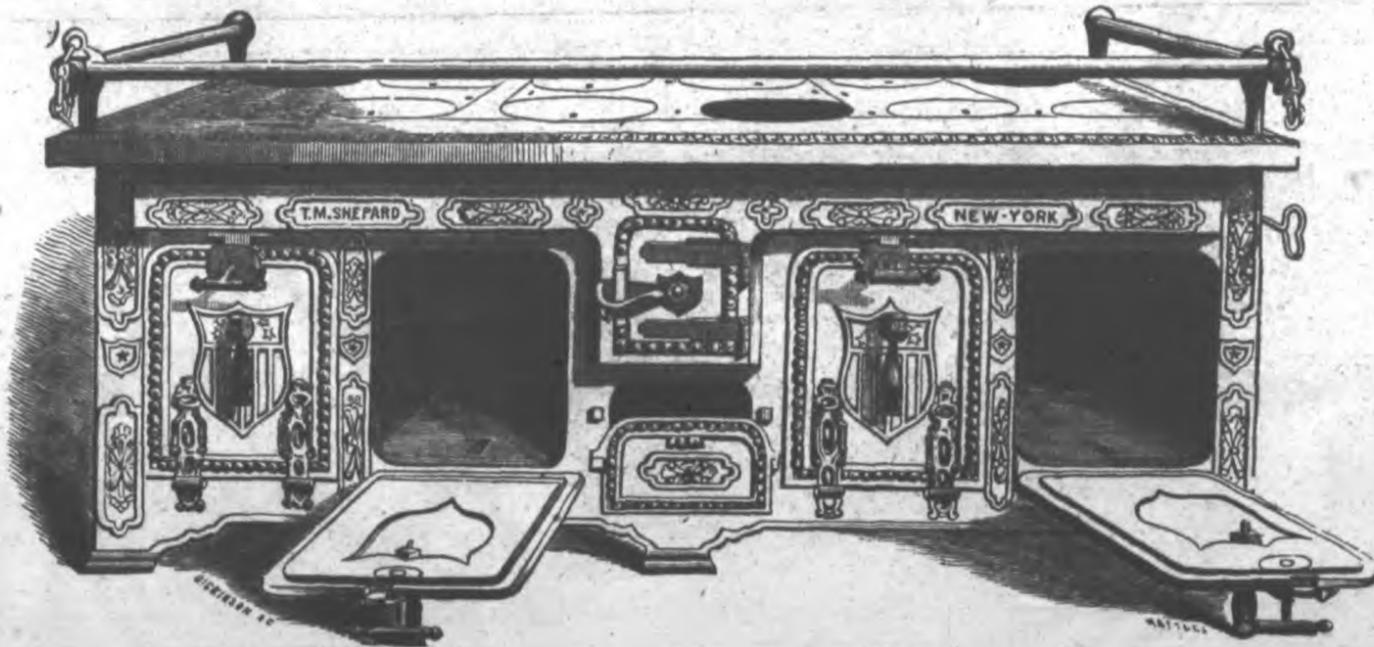

Baker's Ovens—Three sizes for Steamships. Cabin Heating Stoves—Various patterns.

**SHEPARD'S STEAMSHIP, AND SHIP CABOOSES,**  
ALSO, ALL SIZES FOR SMALLER VESSELS.

Twenty Sizes of superior Caboozes. The best article for Ship's Cooking ever manufactured. Their success on the Pacific Mail, Collins, Charleston, Savannah, and other Lines, attest their merit. They never fail.

Copper, Tin and Iron Wares, well manufactured and strong, suitable for Ship use, furnished with despatch. Pantry and Galley Outfits complete, to order. Copper, Sheet Iron & Tin Work made to order. Repairs attended to on Ship-board of all Galley and Pantry Fixtures.

**CHAS. J. SHEPARD, 242 Water St., New York.**

EXTRACT FROM OFFICIAL REPORT  
OF THE  
**INTERNATIONAL JURY,**  
UPON  
**Musical Instruments,**  
AT THE  
**EXPOSITION UNIVERSELLE, PARIS, 1867.**  
**BY M. FETIS.**  
REPORTER OF THE JURY.

---

**GROUPE II., CLASS X.,**  
**PIANOS,**  
**1868.**

The Pianos of Messrs. STEINWAY & SONS' are equally endowed with the splendid sonority of the instruments of their competitor; they also possess that seizing largeness and volume of tone, hitherto unknown, which fills the greatest space. Brilliant in the treble, singing in the middle, and formidable in the bass, this sonority acts with irresistible power on the organs of hearing. In regard to expression, delicate shading, variety of accentuation, the instruments of Messrs. STEINWAY have over those of their American competitor an advantage which cannot be contested. The blow of the hammer is heard much less, and the pianist feels under his hands an action pliant and easy, which permits him at will to be powerful or light, vehement or graceful. These pianos are at the same time the instrument of the virtuoso who wishes to astonish by the eclat of his execution, and of the artist who applies his talent to the music of thought and sentiment, bequeathed to us by the illustrious masters; in one word, they are at the same time the pianos for the concert-room and the parlor, possessing an unexceptional sonority.

# Water & Sewerage Pipes.

## KNIGHT-BAILEY PATENTS.

The Water-Pipes are made of wrought Iron, lined and coated with Hydraulic Cement, with Socket Joints, and connections for service pipes already inserted. Entirely free from oxidation they are absolutely indestructable. They can be laid and guaranteed for much less than cast iron Pipes

The Sewerage Pipes are made of Hydraulic Cement. They stand the most severe tests of acids, increase in strength with age, are perfect in interior finish, and cheaper than any other pipes made.

We will contract for the water supply and drainage of cities and villages.
